

Area	Your position	What remains
-----	-----	-----
C	Foundation	Advanced security-
oriented C		
Java	Foundation	Advanced
Python	Foundation	Security automation
DSA / ADSA	Strong foundation	Interview-level
mastery		
Full Stack	Foundation	Secure application
development		
Deep Learning	Foundation	Advanced
specialization		
Computer Networks	**Strong foundation**	Advanced network
security		
Information Retrieval Systems	**Strong foundation**	Security/threat-
intelligence applications		
Linux	Developing	**Deep Linux
administration + internals**		
Operating Systems	Developing	**OS internals +
security**		
Cybersecurity	Developing	**Major
specialization**		
Cloud	Gap	AWS/Azure + cloud
security		
DevSecOps	Gap	CI/CD +
container/IaC security		
Cryptography	Gap	Strong fundamentals
+ practical application		
Web Security	Gap	**High priority**
VAPT / Pentesting	Gap	Advanced practical
capability		
SOC / Detection	Gap	SIEM + threat
hunting		
Reverse Engineering	Gap	C + Assembly + OS
internals		
AI Security	Gap	**Potential
specialization**		
System Design	Gap	Distributed +
secure architecture
